Equality and diversity

Our approach to equality and diversity

Find out about the London Borough of Sutton's commitment to equality and diversity and our objectives for 2014-18.

Integrated Impact Assessments

Integrated Impact Assessments (IIA's) are a tool that the Council uses for assessing the possible impact (positive and negative) of the work we do.

Workplace equality

The London Borough of Sutton is proud to be part of Stonewall's Diversity Champions Programme.

Equalities data

Our Sutton DataCard presents an overview of equality and diversity data in the Borough. It also provides commentary on trends and comparison against London and England, and how the Council is, and will be, responding to trends with priorities, policies, programmes and activities.

Equality and Diversity Forum

The Equality and Diversity Forum provides advice to the Council on equality and diversity issues and is a 'critical friend' for the Council to test the equality impact of its policies and programmes prior to and post their implementation.

Getting involved - community groups and organisations

We have a number of key equality and diversity groups and organisations operating in the borough who promote diversity and equal opportunity for Sutton residents.
