**THE SUTTON PLAN**

# Who have we engaged with so far

**THE SUTTON PLAN**

# Five Principles

1. Put Sutton first
2. Work across sectors
3. Get involved early
4. Build stronger self sufficient communities
5. Provide seamless, coordinated services

# Four Priorities

## 1. Tackling domestic violence and abuse and its causes

A three year programme focused on persistent high rates of domestic abuse, its causes and associated issues (53 per cent of family interventions in the borough report incidences of domestic abuse).

## 2. Providing early help to young families at risk of disadvantage

Providing coherent, cross-partner support for young families at risk of disadvantage – collaborating on a new approach to early intervention that brings together midwives, health workers, children’s centres, social workers and the voluntary sector with the aim of creating a more rational, single point service.

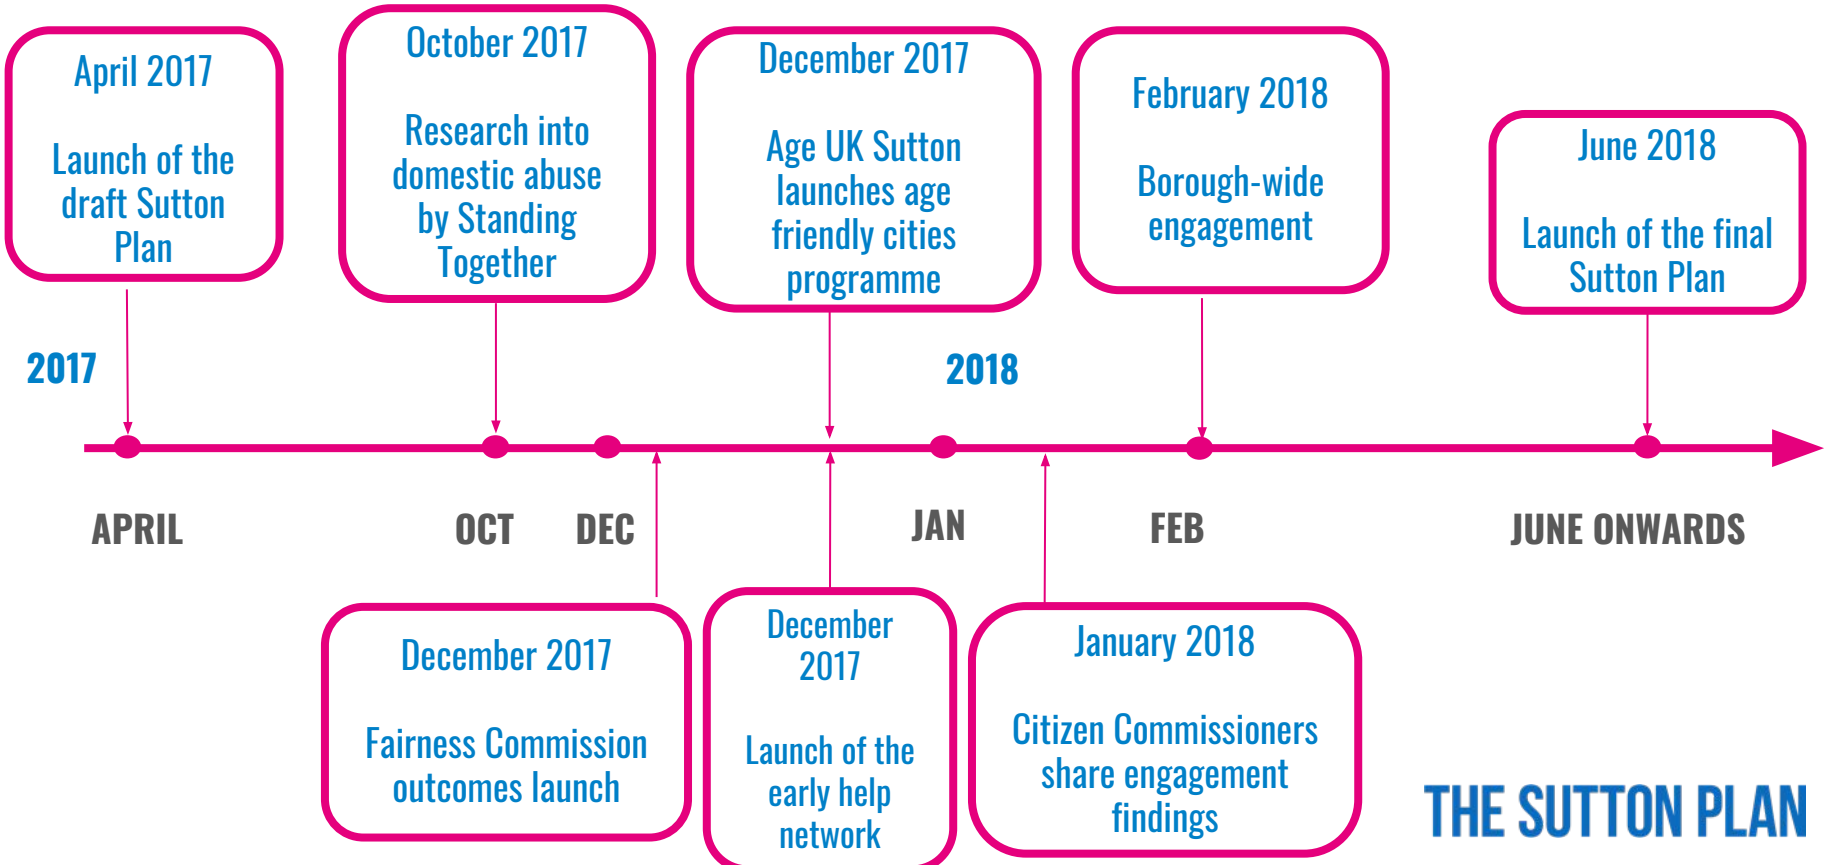

### 3. Supporting older people

Age UK - Sutton were recently announced as lead partner for this work. The aim will be to work towards making Sutton an 'age friendly' borough in line with World Health Organisation (WHO) guidelines and also focusing on loneliness and isolation.

## 4. Making Sutton a better place for all age groups

Working together to make the borough a more attractive place to live, work and play for all age groups, maximising our potential for economic growth and forestalling the potential **‘missing generation.’**

# Support Offer

1. **Public service leadership programme**
2. **Ongoing engagement activity**
3. **Data collaboration**
4. **An integrated approach to our communications**

## Our Shared Goal

**‘A new beginning for Sutton, bringing public sector partners, businesses and the voluntary sector together to develop a new model of public services for the benefit of residents’**

## Discussion

- 1) Each table to choose **one** of the priorities - what are your thoughts, what would you change, what would you improve, how can things be done differently? **on green post-it**
- 2) Are these the right priorities, if not where should we put our energies in the future? **on orange post-it**
