

**Questions from Members of the Public
Under Standing Order 8.7**

1. Question asked by Richard Johnson to Councillor Councillor Manuel Abellan, Chair of the Environment & Neighbourhoods Committee

As Sutton's lead Councillor for environmental issues, will Councillor Abellan reassure Council and Sutton's 200,000 residents that his response to Mr. Eveleigh, at Full Council, 28 January 2019 was a correct and accurate assessment of the environmental impact of the Heathrow proposals upon this borough?

Or will Councillor Abellan withdraw his answer previously given to Mr. Eveleigh, and provide a correction, accepting that in direct contrast to his previous statement, the Heathrow flight path proposals contain evidence of a significant, detrimental environmental impact upon addresses within the London borough of Sutton?

2. Question asked by John Carey on behalf of the Trustees of Sutton Night Watch to Councillor Marian James, Chair of the People Committee

Does the Council intend to stand by the motion passed by majority decision in November 2017 and help Sutton Night Watch Homeless relocate when the time comes, or does the council stand "In Contempt of Resolution" with an intention to neglect this obligation?

3. Question asked by Fiona Lumsden to Councillor Manuel Abellan, Chair of the Environment & Neighbourhoods Committee

What budget has been set aside for proposed Controlled Parking Zone (CPZ) for the borough?

If following residents views/opinions being taken into account and a re think by the council that decides NOT to go ahead with the CPZ, what will happen to the money that has been set aside, will it be used to improve our roads ie potholes/resurfacing etc or perhaps towards helping the growing homeless problem that seems to have worsened in the borough over the past couple of years?

4. Question asked by Bill Plummer to Councillor Manuel Abellan, Chair of the Environment & Neighbourhoods Committee

Much has been made of Sutton's car ownership figures, on the Council website, in various publications and in the promotion of the current CPZ expansion consultation.

Where exactly does this figure showing Sutton as having the 4th highest ownership come from?
