

Safer Neighbourhood Teams update

Anti-social behaviour around the tennis courts in Stanley Park:

PS Cook's team have been conducting patrols and have found nothing to report in and around Stanley Park. They will continue to include this in their patrols but other parks have bigger issues and may get more of their patrolling time. If issues increase at Stanley Park they will amend their patrols as necessary.

Crime figures:

Crime figures for June, July and August have been low.

Total offences for this period have been:

- 13 Residential/Attempted Residential Burglaries
- 11 Theft from Motor Vehicle offences.
- 4 Theft of Motor Vehicle

There have been no crime patterns in this period.

We have been made aware of inaccurate crime figures from the Met Police website. This can be down to several factors around inputting and recording. The accurate crime figures are the ones that we produce as we are able to look into all reports in detail to confirm the details and location.
