11/27/2020 10:54:41

Name

Georgios Zampas

Role and organisation (if any)

Interest in the application

Objector

Written Statement

"I would like to express my serious concerns about this proposal, especially during the pandemic.

As more and more people are currently working from home, a worksite so close to the existing residential building would cause severe disruption during working hours.

This also means that more people will have access to the premises which will increase the infection risk.

There has been regular criminal activity in the area and a worksite within the premises will expose both the tenants and the buildings to intruders.

IDM has not been very efficient with maintaining the existing residential building and dealing with urgent works and repairs, which makes me believe that shifting their focus to the new project will have a great impact on the state of Waddon House.

"
